

Baan Saan Rak is a foster care home established in 2003 in Maelao, Chiang Rai Province, Thailand. The home cares for children in vulnerable conditions including orphans, broken families and extreme poverty.

Baan Saan Rak welcomes every child in need regardless of race, ethnicity or religion.

Children aged between 4 and 20 years old receive a safe home, education support and family care.

Digital Alchemy Partnership

Digital Alchemy has been supporting Baan Saan Rak since 2007 and continues to be a proud supporter until today.

More than 4,320,000 Thai baht was spent on the improvement of children's welfare and wellbeing.

DA Care and DA Family volunteers help narrow opportunity gaps and support children's future success. Through annual activities, staff and children connect through learning and joyful experiences. In 2024, after learning that the children of Baan Saan Rak dreamed of visiting the beach, Digital Alchemy provided additional funding through staff training initiatives, and volunteers accompanied the children on this memorable trip.

Impact Evidence Today

- Consistent monthly financial support
- Lunch program for children health and wellbeing
- Staff volunteer visits and engagement
- Education continuity for children who study in other cities
- Inclusive care for Akha and Lahu tribes families

Our commitment

Digital Alchemy commits a minimum of **20,000 THB per month** to support the daily operations and infrastructure of Baan Saan Rak. From time to time, DA also contributes additional funding to support home improvements and meaningful activities for the children, based on needs and opportunities.
